1. Purpose

This procedure describes how vendors are selected, evaluated, and monitored at Sogno Entreprise.

2. Vendor Selection

New vendors are proposed by the requesting department and evaluated against cost, reliability, and — for any vendor touching company or customer data — security posture.

3. Security Evaluation

Vendors that will process company or customer data must complete a security questionnaire and, for Restricted-data vendors, provide evidence of a recent security audit or certification (e.g., ISO 27001, SOC 2) before onboarding.

4. Approval

Vendor approval follows the same thresholds as the Procurement Policy (SGN-FIN-03). Data-handling vendors additionally require IT & Security sign-off regardless of contract value.

5. Contracts

All vendor contracts are reviewed by Finance and, for data-processing vendors, must include a data-processing addendum consistent with the Data Protection & Privacy Policy (SGN-IT-06).

6. Vendor Security

Vendors with standing access to company systems are reviewed annually. Access is revoked immediately upon contract termination.

7. Performance Monitoring

Vendors above 500,000 DZD in annual spend receive a documented performance review each year, covering service quality, incident history, and contract renewal recommendation.

Revision History

Version	Date	Author	Summary of Changes
1.0	01 Jun 2021	K. Rahmani	Initial release.
1.3	01 Mar 2026	K. Rahmani	Added mandatory security questionnaire for data-handling vendors.
